KFUK-KFUM Danmark

Vi tilbyder aktiviteter, der på et tydeligt kristent grundlag møder de behov, som børn og unge omkring os har, og styrker deres livsmod og handlemuligheder i forhold til både trosliv og samfundsliv.

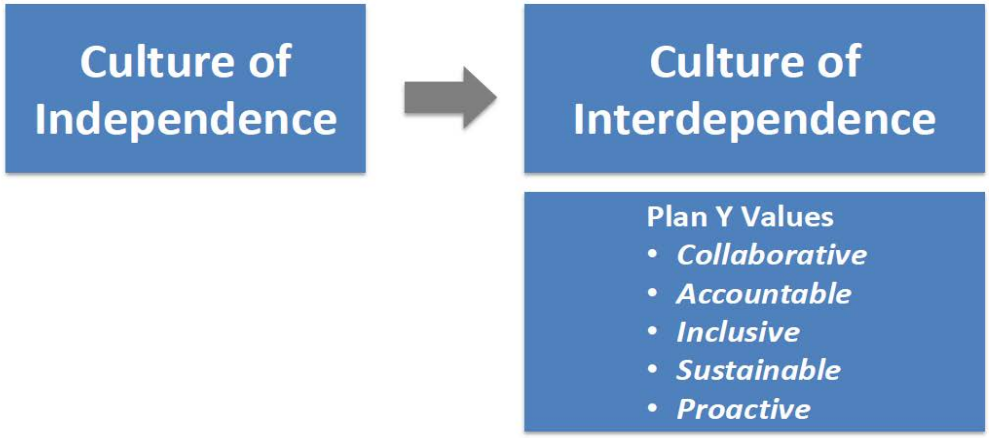
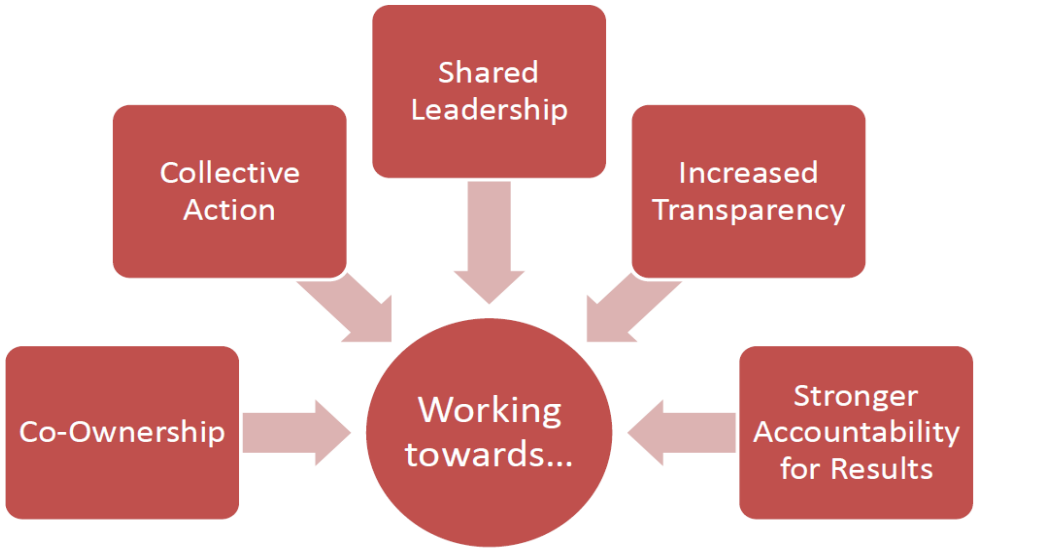
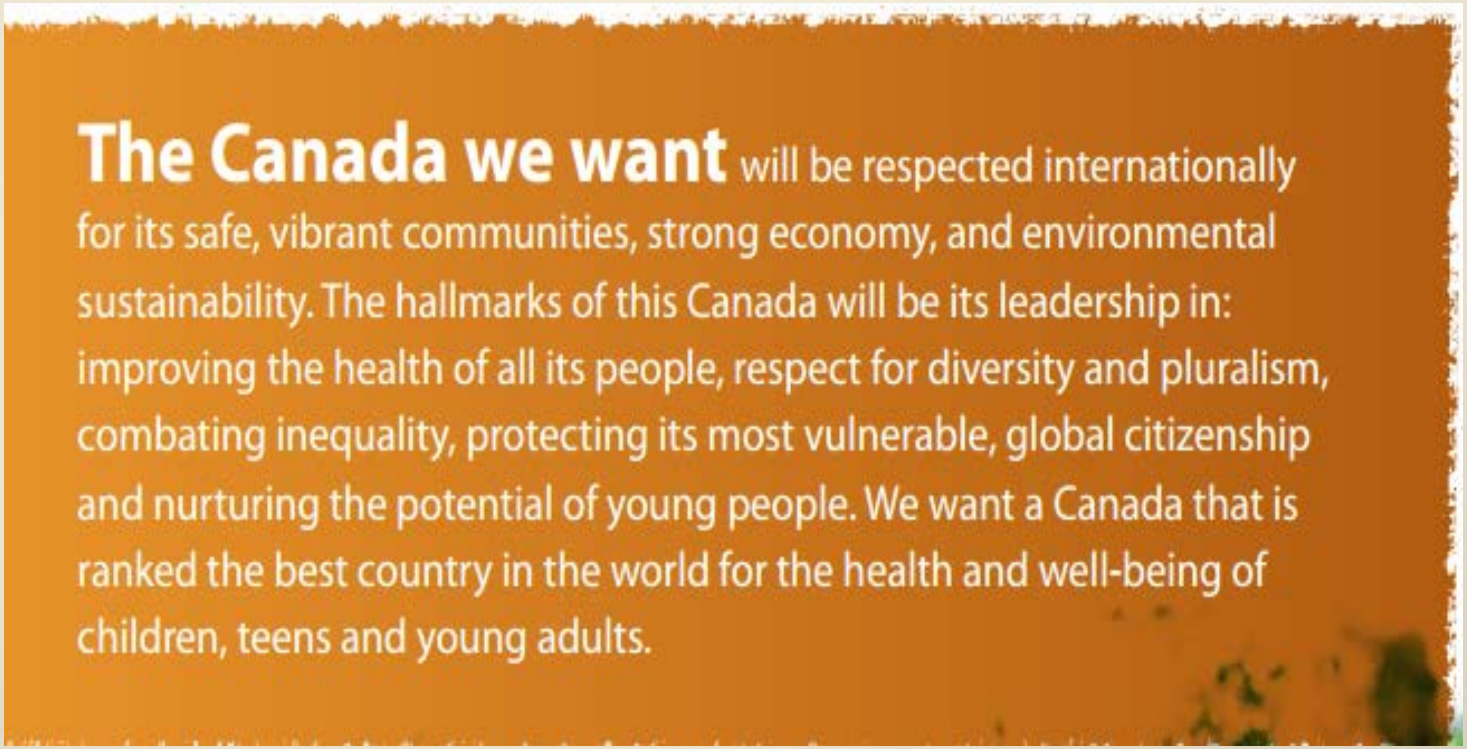
A shift in values



And the way we work as a Federation is changing





The Canada we want will be respected internationally for its safe, vibrant communities, strong economy, and environmental sustainability. The hallmarks of this Canada will be its leadership in: improving the health of all its people, respect for diversity and pluralism, combating inequality, protecting its most vulnerable, global citizenship and nurturing the potential of young people. We want a Canada that is ranked the best country in the world for the health and well-being of children, teens and young adults.

The YMCA we need is deeply rooted in Canadian communities and is widely recognized for its vital role in strengthening the foundations of community. Across Canada, the YMCA plays an important integrating role that contributes to a more civil society based on equality and inclusion. The YMCA we want is working together as a strong, highly effective federation, enabling Member Associations to build on our heritage and strengths to improve the foundations of their unique communities in significant and demonstrable ways. Individual YMCAs will be responsive to the changing demographics and needs of their locale, whether that means a focus on seniors, newcomers, marginalized populations, or other groups.
